Museum Notes.

The Museum flower tables are dis-
playing now some of the rarer flow-
ers. The large yellow lady's slipper,
the mossy flower or stemless lady's
slipper, and the ram's head lady's
slipper have been brought in the past
week together with the snowy or-
chids and the less conspicuous tall,
leafy, green and the long-bracted or-
chids. A fine pitcher plant was se-
cured by Gordon Brown of the Center
school in the swamp below the school
house. The plant is in blossom and
in fine growing condition and should
live through the summer. The re-
cord for the week is: Twin-flower,

June 5; forget-me-not, Tartarian hop-
suckle, common barberry, June 5;
star-flowered sedge, common or soft
rush, bladder sedge, pitcher plant,
hound's tongue, cow lily, black
snakeroot, ram's head, lady's slipper,
alsike clover, fruit of box elder, swamp
black currant, red-osier cornel and
English plantain, June 7; iris or blue
flag, golden ragwort, Indian cucum-
ber-root, herd Robert, June 8; June
grass, swamp horsetail, cinnamon
fern, blackberry, common cinquefoil,
orange hawkweed, white daisy, yar-
row, early meadowrue, stemless la-
dy's slipper, tall leafy green orchids,
three-leaved Solomon's seal, small
sun drops and poverty grass, June 10;
black chokecherry, hare's ear mus-
tard, buckbean, mountain ash, com-
mon wood sorrel, lady's sorrel, clasp-
ing-leaved twistedstalk, and large-
leaved avens, June 12.

The most notable addition to the

bird calendar is a pair of Towhees
which were seen near the Stark
school on June 10. These birds are
rarely found in northern Vermont and
it is interesting to note that their sta-
tion this year is about three miles east
of where a pair nested at Cole Corner
in 1915. The male was singing and
the female skillfully unrolling poplar
leaves to secure the larvae hidden
within, of which she was making a
substantial breakfast. Other addi-
tions to the calendar are: Whip-poor-
will, May 22, mourning warbler, June
7; black-billed cuckoo, June 8.

Nothing To Be Added To The Maxwell

YOU will never want to add anything to your Maxwell.
The purchase price includes everything you will ever
need or desire for luxurious motoring.

You won't want to disguise the hood or buy a new body
or put in another carburetor or ignition system or install
electric lights or a self-starter.

You won't want a new radiator or springs or new spark
plugs or shock-absorbers or a new top.

You need add nothing for comfort, reliability, beauty,
economy or convenience. If it is a Maxwell, your car, your
experience and your investment are complete.

That is the way that Maxwells are designed, manufactured
and sold.

Question the owners of other motor cars—any other motor
cars—and see if they are equally satisfied with their motoring
investment.
